A Story Sprout Press Book

BAY AREA BLAST

In the SF Bay Area, we connect everything! Kai was checking real-time data for today's World Cup match.

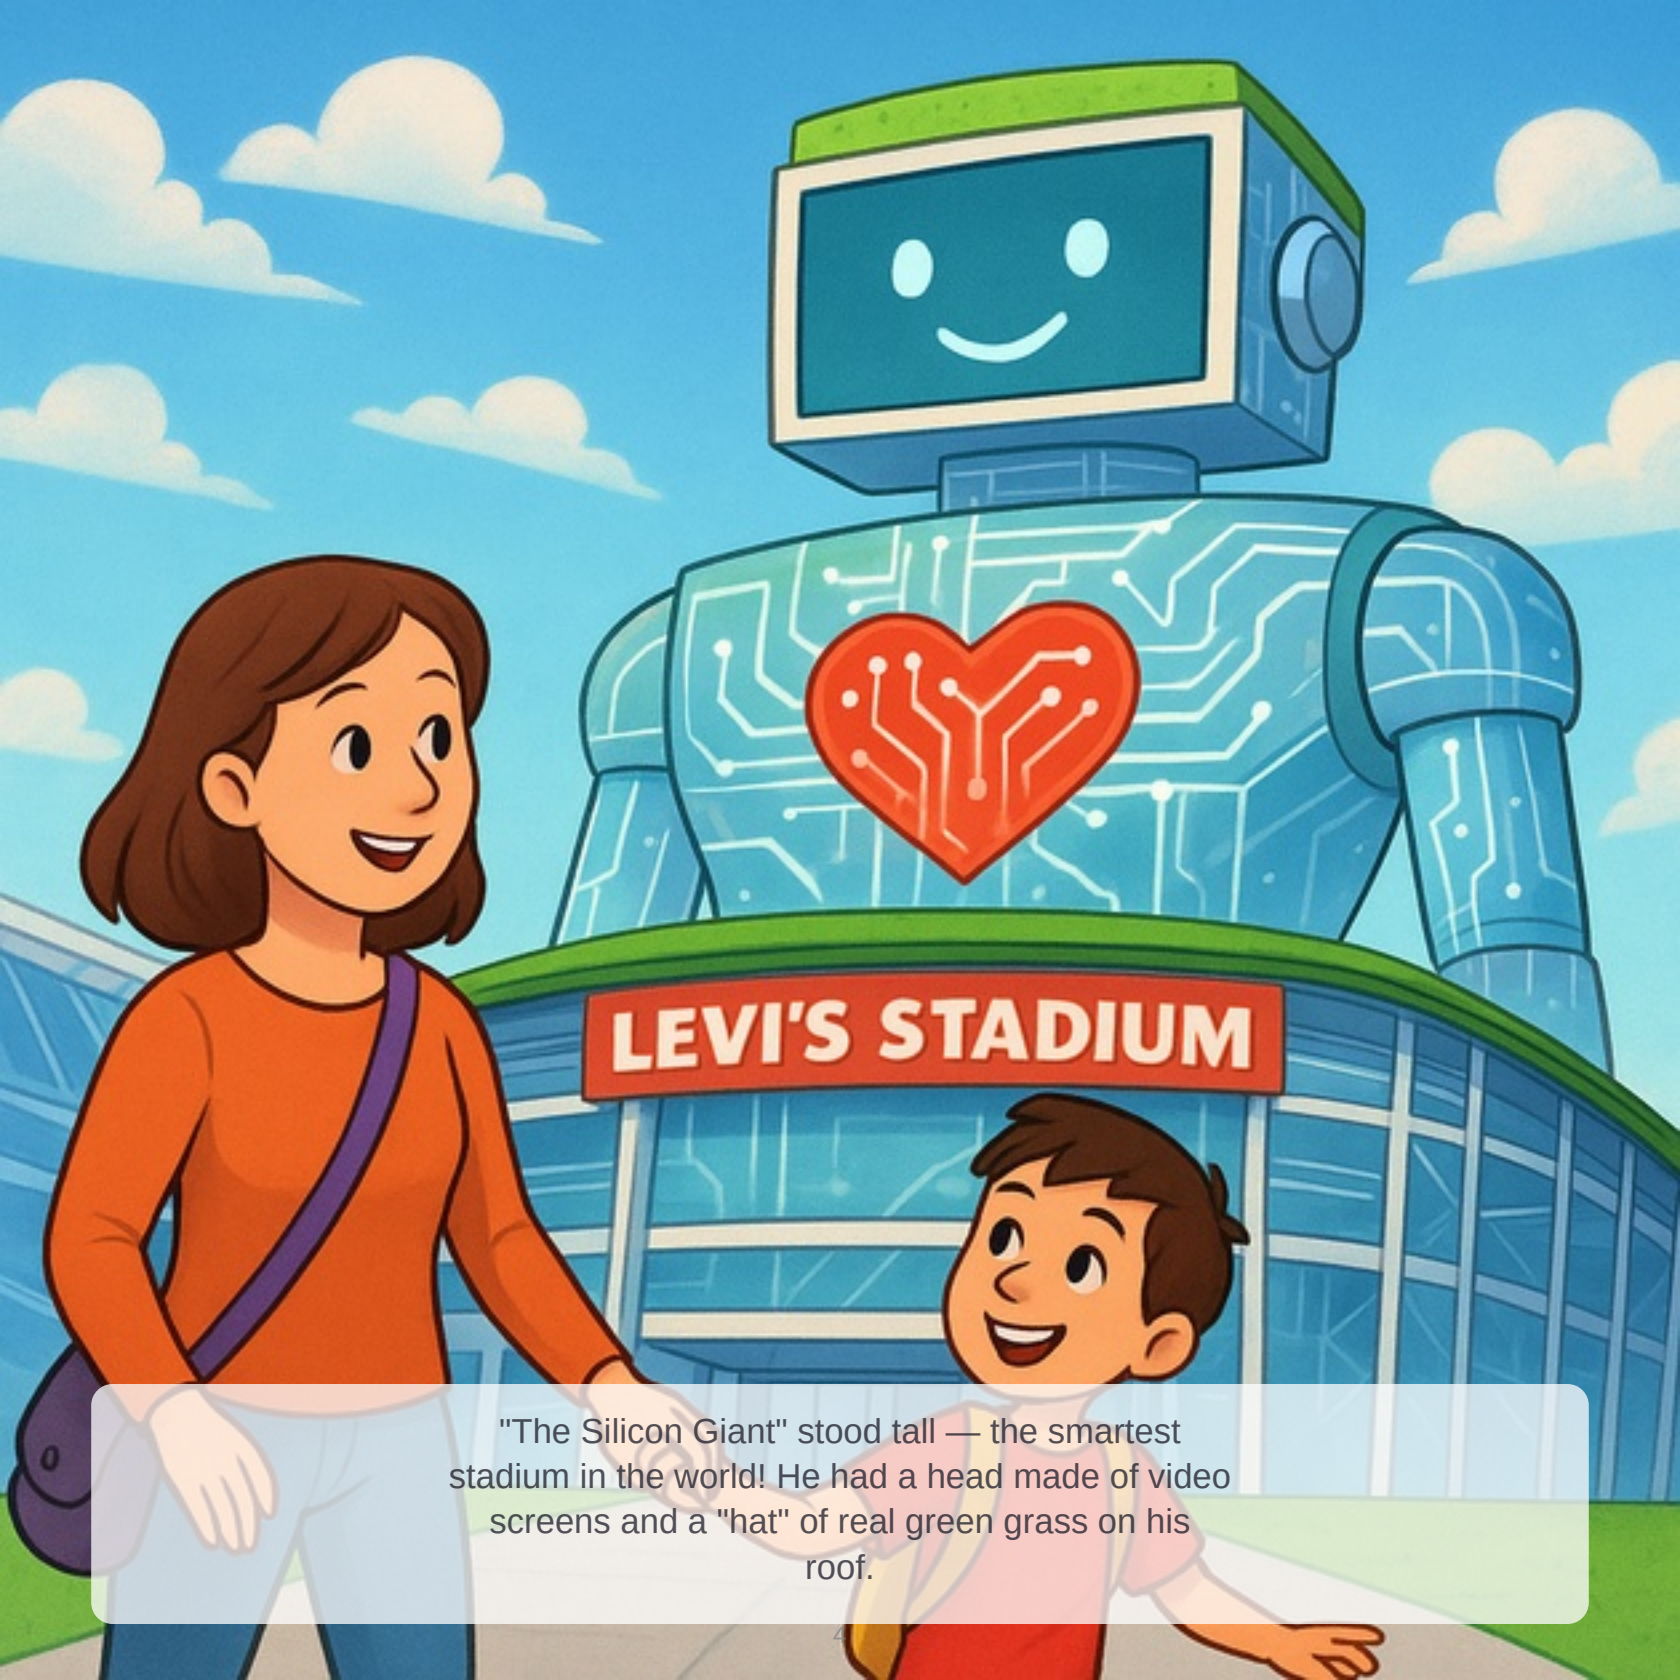

"Mom, the stadium is already at 80% power from its solar panels!" Kai said.

"Ready to see Portugal play at Levi's Stadium?" Mom laughed.

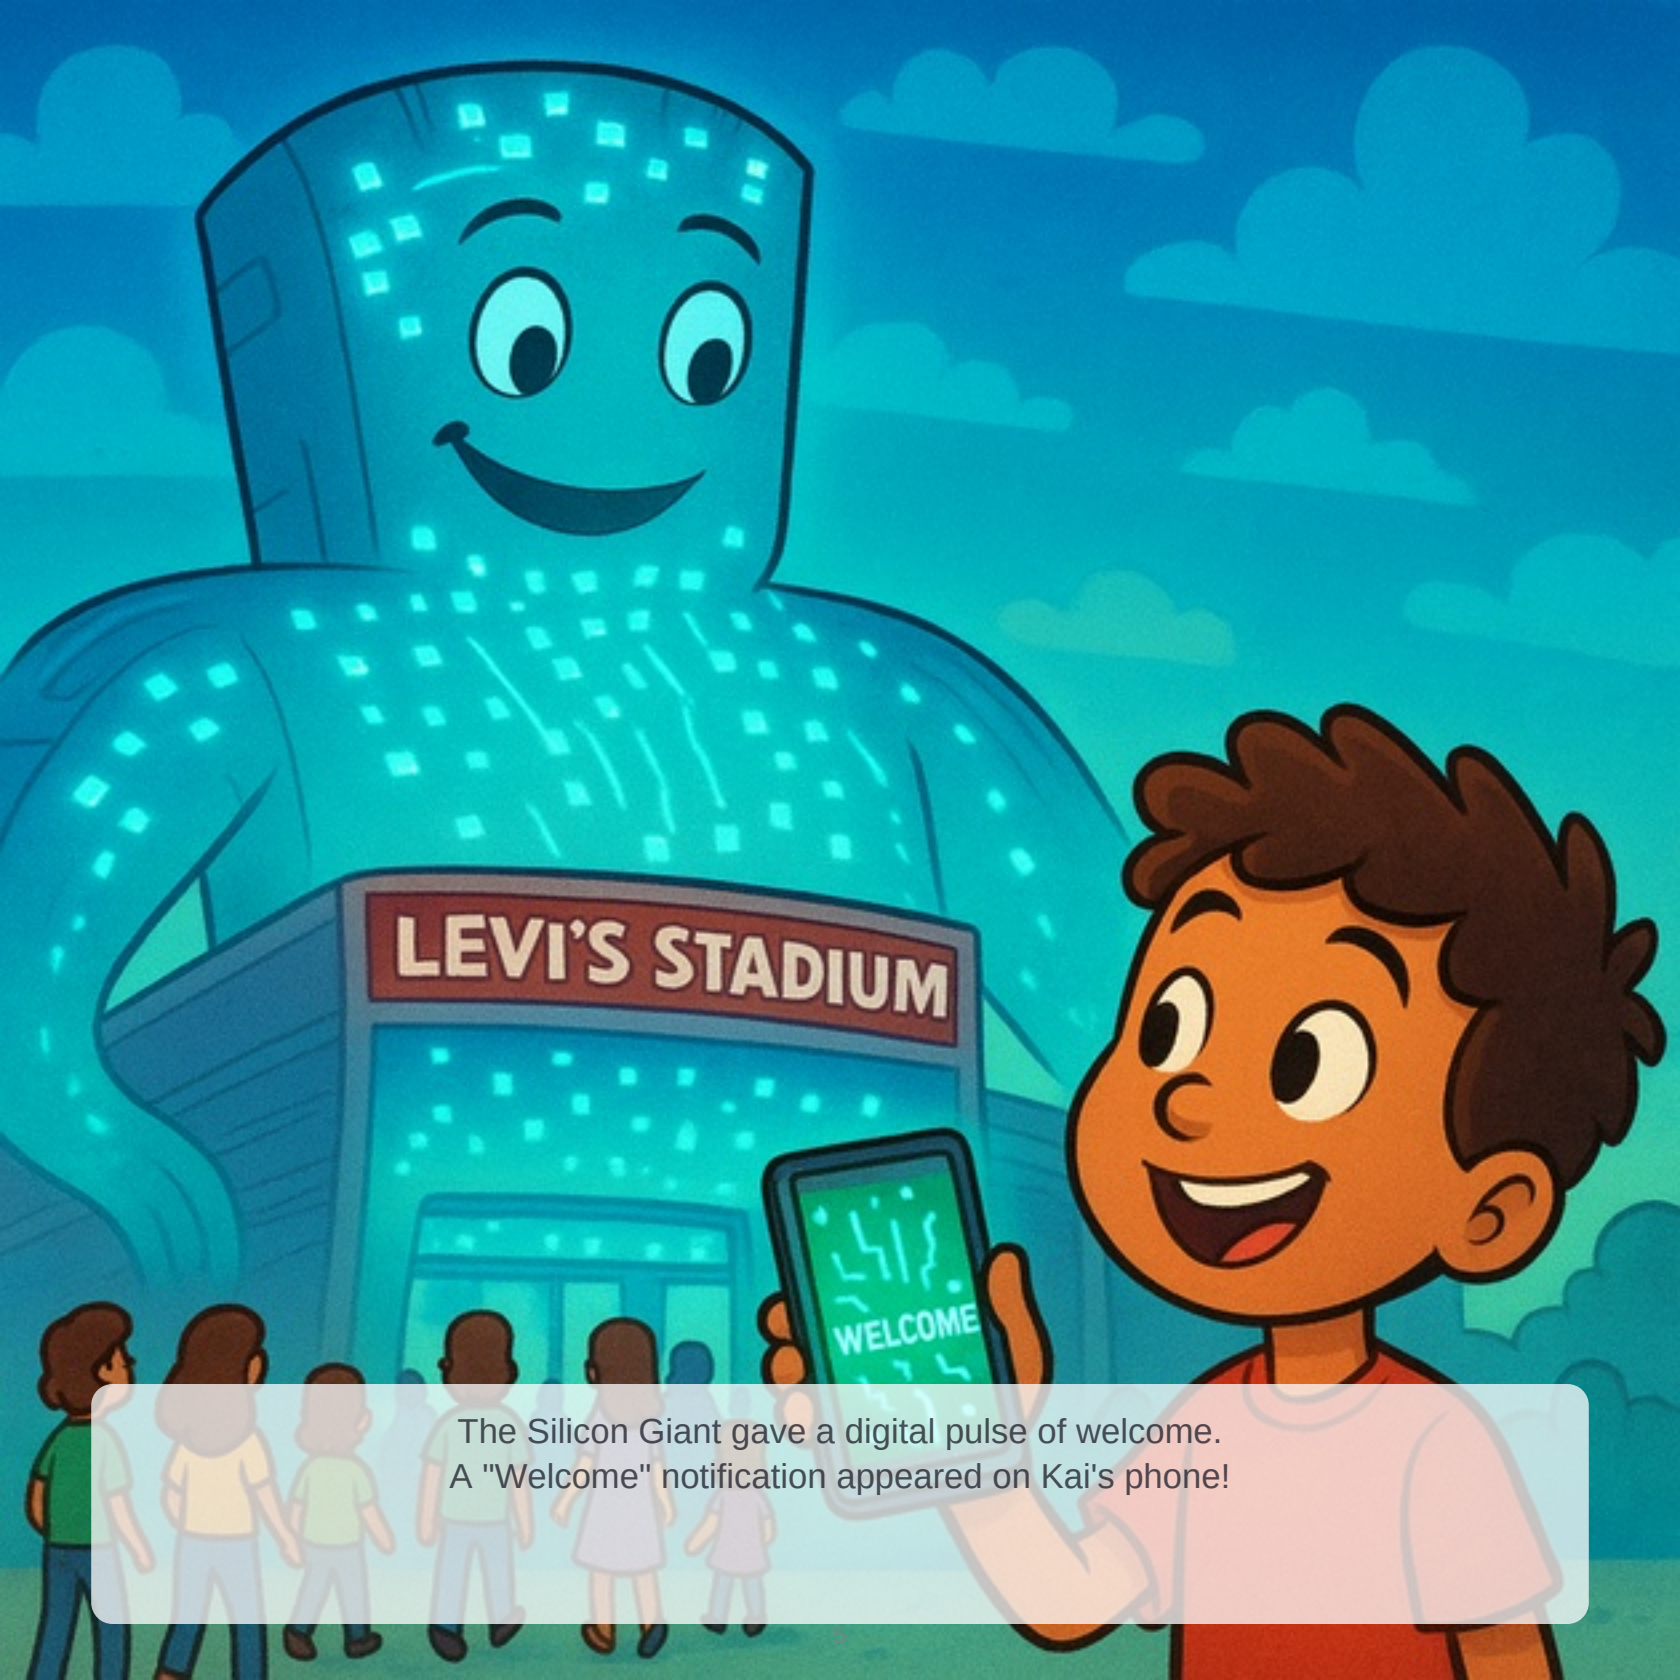

An illustration of a woman and a young boy sitting on a Caltrain. The woman has dark hair and is wearing a yellow shirt. The boy has dark hair and is wearing an orange shirt with a white number 7. They are both smiling. The train is moving past a blue glass building with the word 'TECH' on it, and the Golden Gate Bridge is visible in the background. The Caltrain logo is in the top left corner.

Caltrain

They hopped on the train, zooming past tech company headquarters. "Look at the Golden Gate Bridge, Kai!" Mom pointed. The train was full of fans from all over the world.

"The Silicon Giant" stood tall — the smartest stadium in the world! He had a head made of video screens and a "hat" of real green grass on his roof.

The Silicon Giant gave a digital pulse of welcome.
A "Welcome" notification appeared on Kai's phone!

Inside, Kai tried salsa made from tomatoes grown on the stadium's roof. "It tastes like sunshine!" he said.

Walking into the bowl was like entering a giant's playground. "Did you know this is the first net-zero energy stadium?" Mom said.

The pre-game show was a drone spectacular!
Hundreds of tiny lights formed a glowing soccer
ball in the sky.

Team Portugal walked out looking powerful and confident. The Silicon Giant blinked red and green in rhythm with the chants.

LEVI'S
STADIUM

ACCESS
THE GOAL!

WHISTLE! Portugal moved the ball with the speed of fiber-optic cable! Their passes were like lines of code building a perfect play.

A Portuguese star did lightning step-overs. The stadium Giant showed the move in super-slow motion on his giant screens.

Even a giant
needs to take
care of the Earth.

SUSTAINABILITY STATION

Between periods, Kai learned how the stadium saves water. "Even a giant needs to take care of the earth," Kai said.

"Karl the Fog" drifted over the walls. The Silicon Giant used anti-glare lights so everyone could see through the mist.

Portugal had a free kick! *BEND!* The ball curled around the wall. *GOAL.EXE COMPLETED!* Digital fireworks exploded!

LEVI'S STADIUM

The data shows
we need to stay
focused!

The other team launched a counter-attack as fast as a viral video. The Portuguese defense worked like a well-synced team.

That's the best kind of connection—the human kind.

After a tough tackle, two players shared a laugh and a handshake. The Silicon Giant showed a giant "Heart" emoji.

TWEET! TWEET! TWEET! Portugal won 1-0! The Silicon Giant gave a multi-colored light show farewell.

"Today was a total upload of fun! I want to code the apps for the next World Cup!" Kai said.

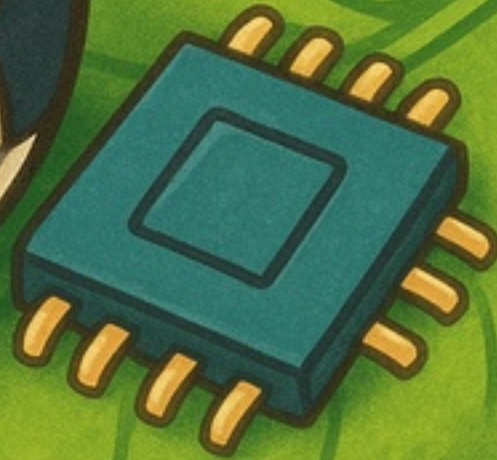

Back at home, Kai shared his photos. He felt connected to millions of fans who had watched the same game.

The data was saved. The Silicon Giant rested his processors. Ready for more blasts of fun in 2026.

In his dreams, soccer was logic and magic combined. Kai was the architect of the win.

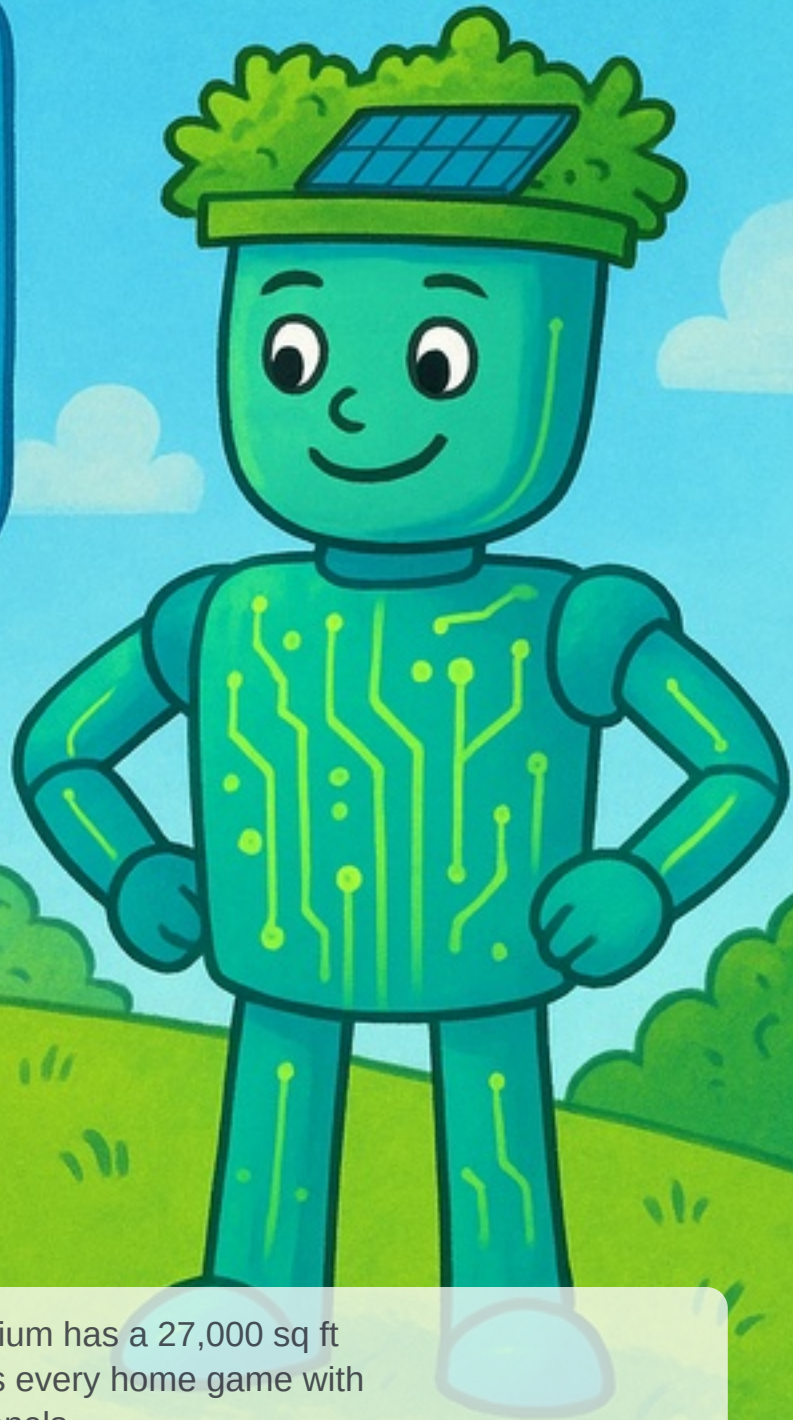

The World Cup is coming to the Bay Area! Are you
ready to connect?

The Bay Area is a place of innovation and natural beauty. 2026 will be a year of incredible connections!

DID YOU KNOW?

Levi's Stadium has a
green roof with
REAL plants and
solar panels!

****Fun Fact:**** Levi's Stadium has a 27,000 sq ft
Green Roof! It also powers every home game with
solar panels.
